

Product of Scotland

Pry open a rock oyster and you'd be lucky indeed to find a pearl. The real treasure, though, is the hidden, tasty delicacy inside, rich with the flavors of the sea. Bottled at 46.8% alcohol strength and traditionally without coloring or chill-filtration, this Small Batch bottling has a truly maritime and oceanic character of sea-salt, sweet peat, smoke, honey and pepper. Containing the finest Malt Whiskies from Scotland's Whisky islands, including those distilled on Islay, Arran, Orkney and Jura, it's no wonder our Master Blender Fred Laing says "If I could select just one dram to transport the Whisky enthusiast to the Islands of Scotland, it would be this Rock Oyster."

Anticipate wave soaked rocks and a salty oceanic, fresh influence on the nose with a hint of peat smoke, and an enticing sweetness. The palate shows preserved lemons, oily lime zest, and sweet peat smoke carried by white and pink peppercorns, developing into barley honey flecked with sea salt and pepper. The long moreish finish neatly replicates the maritime palate, bringing in damp ash with a licorice tang. Bright and bold in the mouth.

Matured in ex-bourbon casks, this chiseled maritime offering combines oceanic malts from such distilleries as Scapa, Arran, Jura, and Islay, especially Laphroaig. Rock Oyster is a most austere, yet rewarding, blend—deeply distillate-driven—appealing to those seeking something saline and spicy, with an undeniably bold, smoldering heart.

*Available in 750ml & 50ml, bottled at 46.8% abv
