

## BITTER LIQUEUR

With the advent of the modern pharmacopoeia in around the mid-19th century, the original medicinal function of Amaro changed and it became an alcoholic beverage and the 'medicine of healthy men'.

The traditional, old Amaro di Torino Doragrossa recipe is a complex blend of carefully selected spices, in which the powerful character of rhubarb and gentian and the balsamic notes of the juniper come to the fore and delectable fresh wild fennel and liquorice notes emerge on the finish.

### MAIN BOTANICALS:

Liquorice, rhubarb, juniper, gentian, wild fennel.

.....  
**70 cl :: 23% vol.**

### MADE IN ITALY

*Serve lightly chilled as a "welcome drink"  
or at the end of a meal.*
